

BUILD INSTRUCTIONS

ELEVATIONS

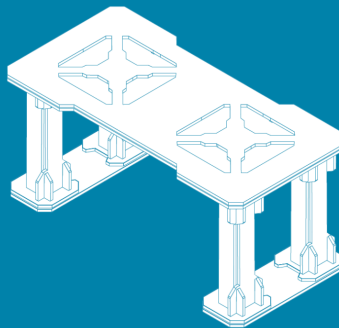

Modular platforms with legs, extenders, feet and steps that combine in many ways.

SERIES

1

STEPS

12

BEFORE YOU START

- White PVA craft glue. We use Aleene's Turbo Tacky: the bottle for big jobs, a glue pen for fine beads.
- Small clamps to hold pieces while they dry.
- Precision tweezers or a pointed tool for punching out small pieces and slots.

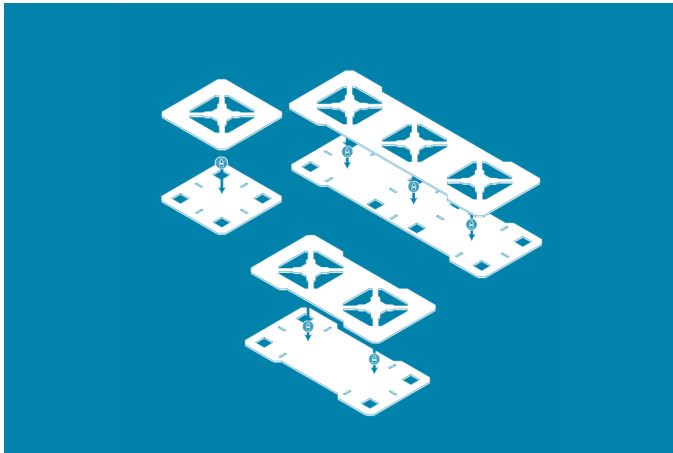

TIPS & TRICKS

- The **front** of a sheet is the side the die cut went into; it has the rolled edges. The **back** is flat.
- Pieces punch out most easily when pushed from the back.
- Fold every score fully so its edge is crisp and straight. It's cardboard, so it sometimes needs a little help.
- Be a *little* generous with glue. It wipes up with a dry or slightly damp paper towel and dries clear.
- Glue marks and their targets always match in shape and size.

NOTE The Elevations set has pieces spread across multiple sheets in some cases. If you find you're missing a piece, find it on another sheet.

1

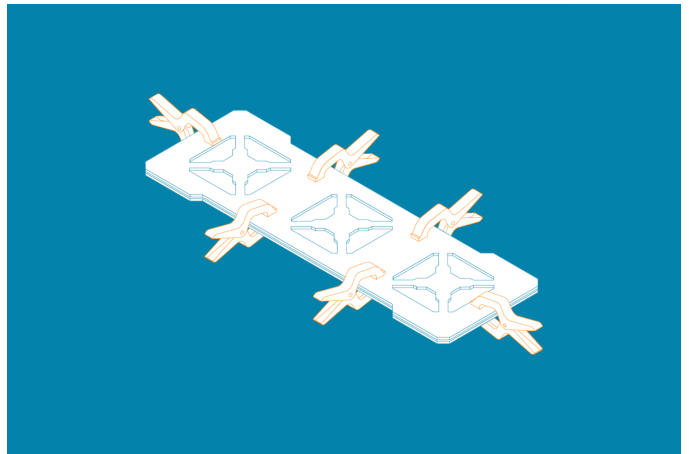

STEP 1 OF 12
PLATFORM TOPS

1. Glue indicated pieces as shown.
2. Make sure that doubled up edges are aligned before drying.
3. These create the PLATFORM TOP pieces.

2

STEP 2 OF 12

1. Clamp pieces every 3 inches or so as shown to dry.

3

STEP 3 OF 12
SUPPORT STRUCTURE

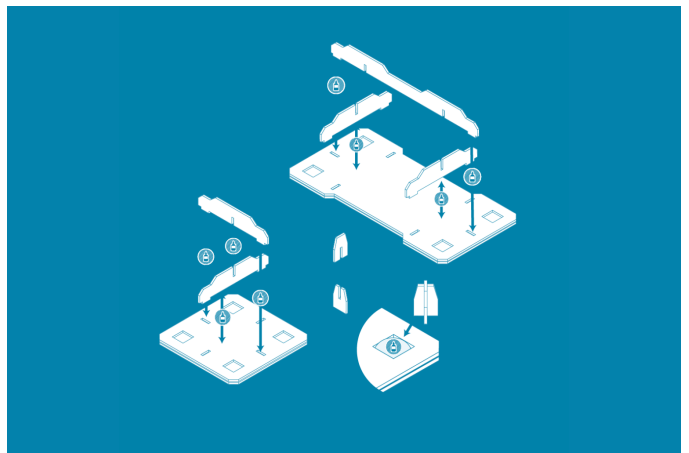

1. Assemble support structure as shown.
2. Use a generous bead of glue on edges that contact the assembled PLATFORM TOP pieces.
3. See the Tips & Tricks video for the most effective method of gluing the plugs.
4. Clean any excess glue and allow to dry.

4

STEP 4 OF 12

1. Assemble similar to previous panel.

5

STEP 5 OF 12
LEGS

1. On pieces **18** & **20** ensure all scores are crisply and evenly folded.
2. When assembling leg pieces, put glue dots in the end of the slots on the larger folded pieces before sliding on the smaller pieces.
3. Check legs for square before allowing to dry.

6

STEP 6 OF 12

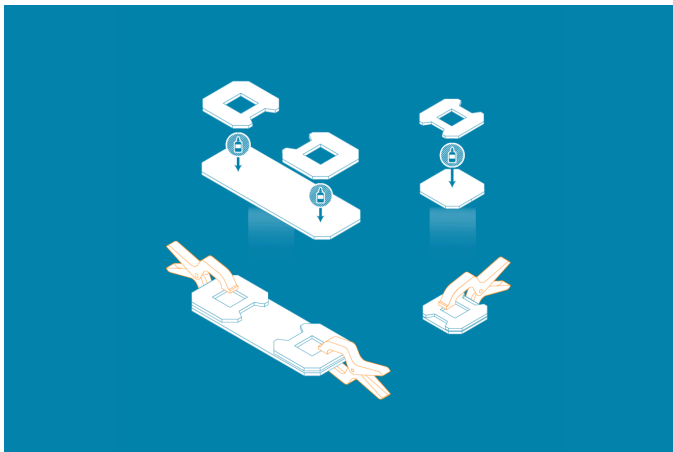

1. No glue is required.
2. Assemble as indicated.
3. These pieces fit snugly. Be careful when sliding piece **03** on the double plugs to not bend or tear any pieces. Slow and steady wins this race.

NOTE There are 2 extra **02** pieces in the set. That is expected.

7

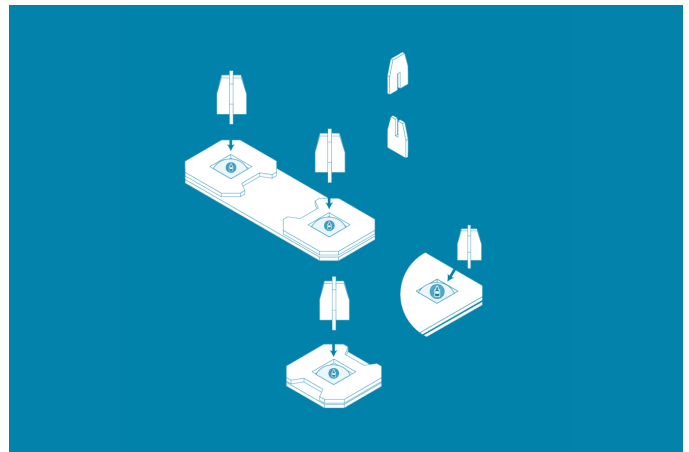

STEP 7 OF 12

1. Glue and assemble as indicated.

8

STEP 8 OF 12

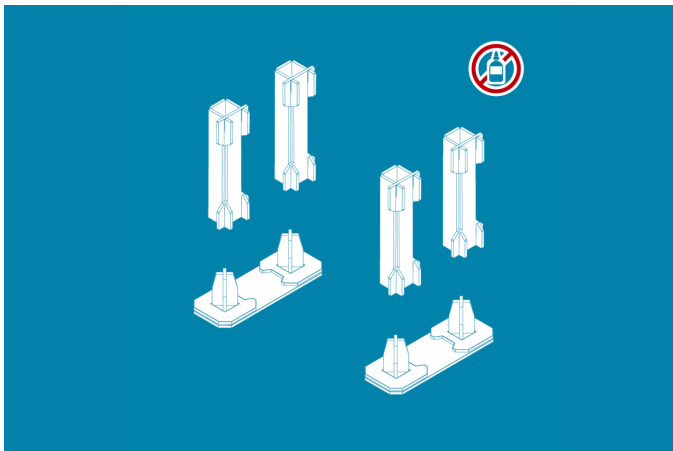

1. See the Tips & Tricks video for the most effective method of gluing the plugs.

Video: www.youtube.com/watch?v=vhj6E0S7FtE

9

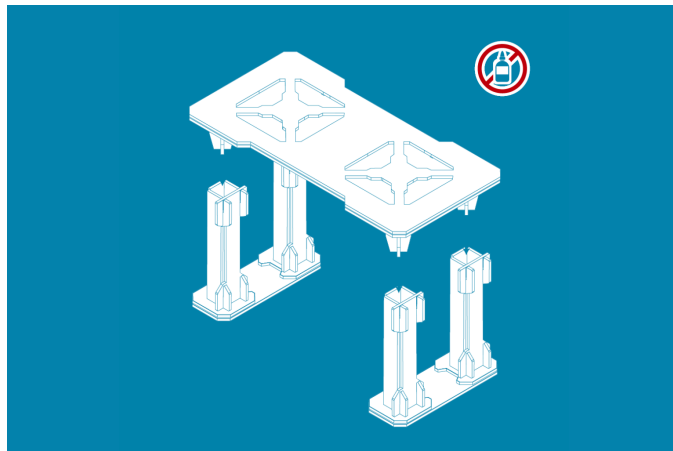

STEP 9 OF 12
LEGS ONTO FEET

1. No glue is required.
2. Legs assemble onto feet as indicated.

10

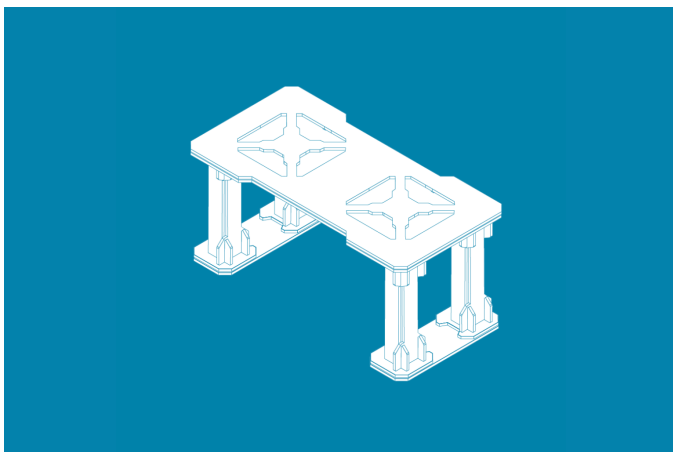

STEP 10 OF 12
PLATFORMS ONTO LEGS

1. No glue is required.
2. Platforms assemble onto legs & feet as indicated.

11

STEP 11 OF 12
ASSEMBLED PLATFORM

1. An assembled platform looks like this diagram.
2. The platforms, legs, extenders, and feet can be combined in many ways.

12

STEP 12 OF 12
STEPS

1. When assembling steps pieces, put glue dots in the end of the slots on the side riser pieces before sliding on the smaller tread pieces.
2. Ensure steps side risers are straight up and down before allowing to dry.

NOTE There are 2 extra **26** pieces in the set. That is expected.
