

BUILD INSTRUCTIONS

GUARD TOWER ADD-ON

Two guard towers, each a stanchion and platform with a removable cover, ladder and ladder stand.

USE FOR Guard Tower (Neutral, Abandoned)

SERIES	STEPS	BUILDS
2	7	2 towers

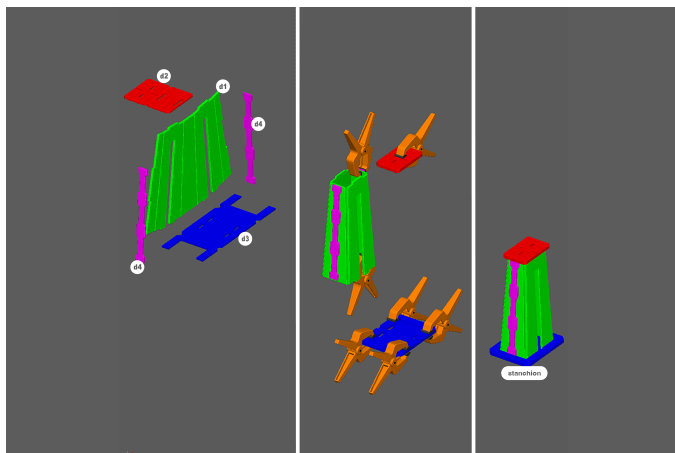

BEFORE YOU START

- White PVA craft glue. We use Aleene's Turbo Tacky: the bottle for big jobs, a glue pen for fine beads.
- Small clamps to hold pieces while they dry.
- Precision tweezers or a pointed tool for punching out small pieces and slots.

TIPS & TRICKS

- The **front** of a sheet is the side the die cut went into; it has the rolled edges. The **back** is flat.
- Pieces punch out most easily when pushed from the back.
- Fold every score fully so its edge is crisp and straight. It's cardboard, so it sometimes needs a little help.
- Be a *little* generous with glue. It wipes up with a dry or slightly damp paper towel and dries clear.
- Glue marks and their targets always match in shape and size.

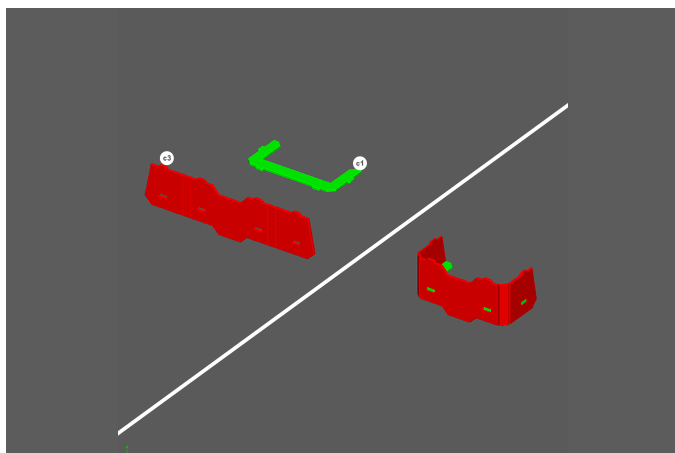

1

STEP 1 OF 7
STANCHION

1. Fold, glue, and clamp pieces as shown.
2. Glue both **d4** pieces to each side of piece **d1** as shown, making sure that the **d4** pieces are aligned to the top edge of piece **d1**.
3. Attach pieces **d2** and **d3** to the **d1** assembly to create a stanchion.

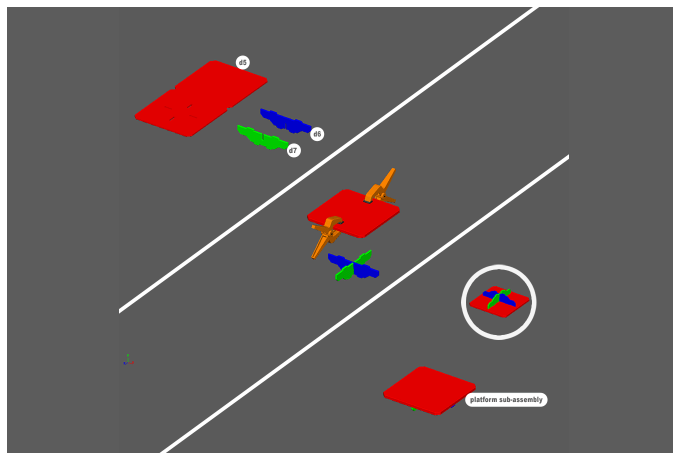

3

STEP 3 OF 7

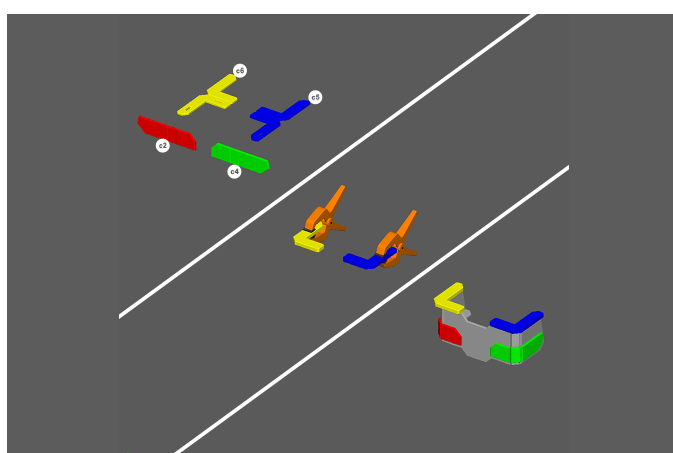

1. Fold and glue **c1** to **c3** as shown.

2

STEP 2 OF 7
PLATFORM SUB-ASSEMBLY

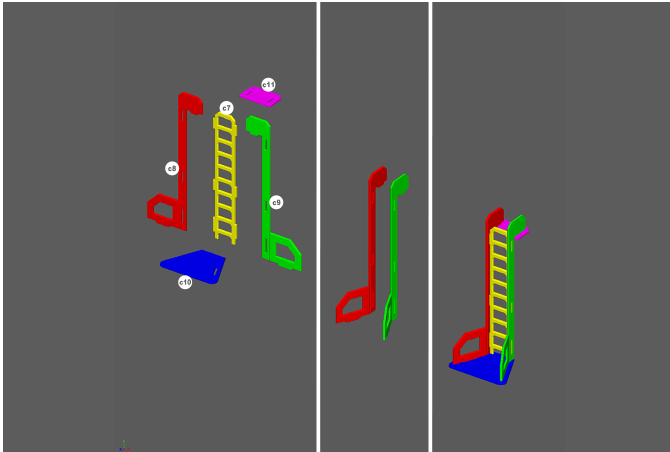

1. Fold, glue, and clamp all pieces as shown.
2. Glue pieces **d6** and **d7** together and then glue to **d5** to create the platform sub-assembly.

4

STEP 4 OF 7
COVER

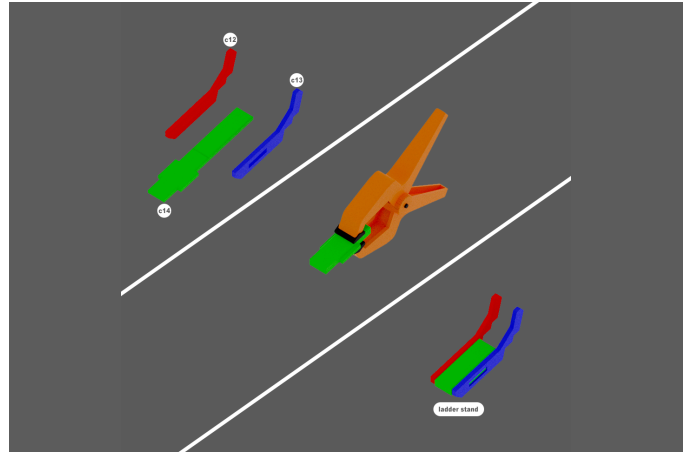

1. Fold, glue, and clamp pieces **c5** and **c6** as shown.
2. Glue pieces **c5** and **c6** to top of structure as shown.
3. Fold and glue pieces **c2** and **c4** to sides of structure as shown to create cover.

5

STEP 5 OF 7
LADDER

1. Fold pieces **c8** and **c9** as shown.
2. Glue pieces together as shown to create a ladder.

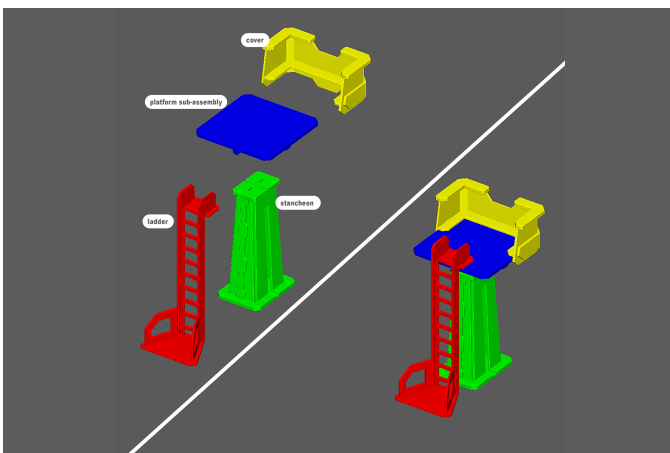

6

STEP 6 OF 7
LADDER STAND

1. Fold, glue, and clamp piece **c14** as shown.
2. Glue and attach pieces **c12** and **c13** to create a ladder stand.

NOTE These are for miniatures to stand on. They have notches to adjust for ladder pitch and can be moved throughout play to give your game a more accurate line of sight when using ladders.

7

STEP 7 OF 7
FINAL ASSEMBLY

1. Glue the platform sub-assembly to the stanchion.
2. The cover and ladder slot into place without glue.
3. Repeat steps 1–6 once more to create the second guard tower.

NOTE Do not glue the cover and ladder pieces to the platform. They are meant to break down for easy storage.
